To Whom It May Concern:

June 5th, 1916.

This is to state that some one has reported a false rumor, in regard to the Maxwell Roadster that I bought from Summer's Garage about three months ago. It is stated that I am not pleased with the car, and that I have had a whole lot of trouble and expense with it, and that I had rather have the old Ford than to have the new car. This is the fourth car that I have owned and I will say that I like the Maxwell as well as any body could like their car, as I have drove it about 2,000 miles and have not had any trouble at all, and the car has not cost me one cent repair bill. I can't see why any body would rumor such a false statement, as I am well pleased with my Maxwell Roadster.

DR. Z. T. PINNER,
Pomaria, S. C.

Take the Judgment of the City that knows how cars are BUILT—and the State that knows how cars PERFORM!

There's no surer judgment, no more trustworthy advice to be had anywhere than that of Detroit and the State of California.

n Detroit

the city that produces three-fourths of the country's cars—where people know cars from the technical and manufacturing sides better than they do in any other city on earth—more Studebakers were registered according to official figures in the year of 1915, than any other cars selling at more than \$500.

In California

the State of wonderful roads and weather—the State where people have more miles of good roads to drive over and more opportunity to use their cars than in any other State in the Union—the official figures for the year of 1915 showed 15,718 Studebakers registered—2,895 MORE than any other car listing at more than \$500.

California KNOWS cars from use on the road—Detroit knows cars from having the bulk of the industry centered in its limits. Both have made Studebaker favorite by a long lead. What better judgment can YOU follow in buying.

And the reason is simply that every time a man makes even the barest comparison of a Studebaker with other cars, he finds that to get as much power size and quality as a Studebaker offers, he must pay from \$250 to \$400 MORE. So they're buying Studebakers—and SAVING that \$250. Why don't you see the cars—then go make that \$250 saving comparison.
